Therefore, **no quantity guarantees** will be given as to the total hours of contracted services to be awarded or number of projects. Vendors will receive a Purchase Order (**or Pcard #**) issued from the Department of Materials Management when contract personnel are needed. The issued Purchase Order will state the type of service required to complete the assigned task(s). In addition, the Purchase Order will contain Cost Center data for use by the Vendor for reporting utilization to the department on a monthly basis.
- 1.4 Services obtained from resulting contract(s), may be utilized toward system design, system maintenance and operation functions, enhancement and/or testing and debugging of existing systems and to fulfill on-going needs of a generalized nature.

The County also reserves the right to seek other alternatives should enough qualified personnel on this contract not be available at the time of a specific agency need. Furthermore, any project not less than \$100,000, greater than one year in scope and/or having an indeterminable completion date shall be solicited to potential vendors through an additional RFP issued by Maricopa County Materials Management.

3.8 **WEB BASED PROCUREMENT FACILITY**

The following describes the Internet-based Task Order Notification facility Maricopa County has developed for use by all vendors awarded the Information Technology Specialist contract, Bid Serial 00102-SC. This state-of-the-art system blends current Internet and Groupware technologies to provide all contracted vendors with the opportunity to receive and respond electronically to Task Order solicitations requested against this contract.

Each vendor who is awarded the contract, will access via the Internet, an electronic mailbox (email account) designated for that vendor's use. Maricopa County will email all corresponding Task Order solicitations to each vendor that responded in the particular category specified. *It will be the ongoing responsibility of each vendor to regularly check this mailbox through the Internet in order to receive Task Order solicitations.* Typically, the Task Order solicitations will be communicated five (5) working days prior to the closing date for responding. The vendor will be able to reply electronically via the Task Order Notification facility if they so wish.

Each vendor who is awarded the contract must fulfill the following requirements:

1) Make provisions for access to the Internet through an Internet Service Provider (ISP) or other method of their choice. The vendor will be responsible for any fees or costs for this access. Alternatively, a vendor may access the Internet via one of the public use computers located at the various County library locations.

2) Purchase, through the County, a Client Access license ("CAL") for Microsoft Exchange at a cost of \$40.00. This fee will pay for the software license to access the Task Order mailbox. The CALs will be purchased by Maricopa County. This license will enable any individual from the vendor's company to access this email account as long as the account name and password are communicated within the company. *NOTE: If the vendor already uses Microsoft Exchange internally, they will still be required to make this payment to Maricopa County.
